Hello, Kids!

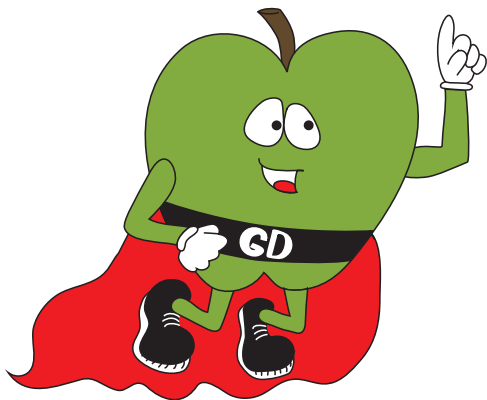

My name is the
Green Defender. Let me help
you find ways to save energy
in your house!

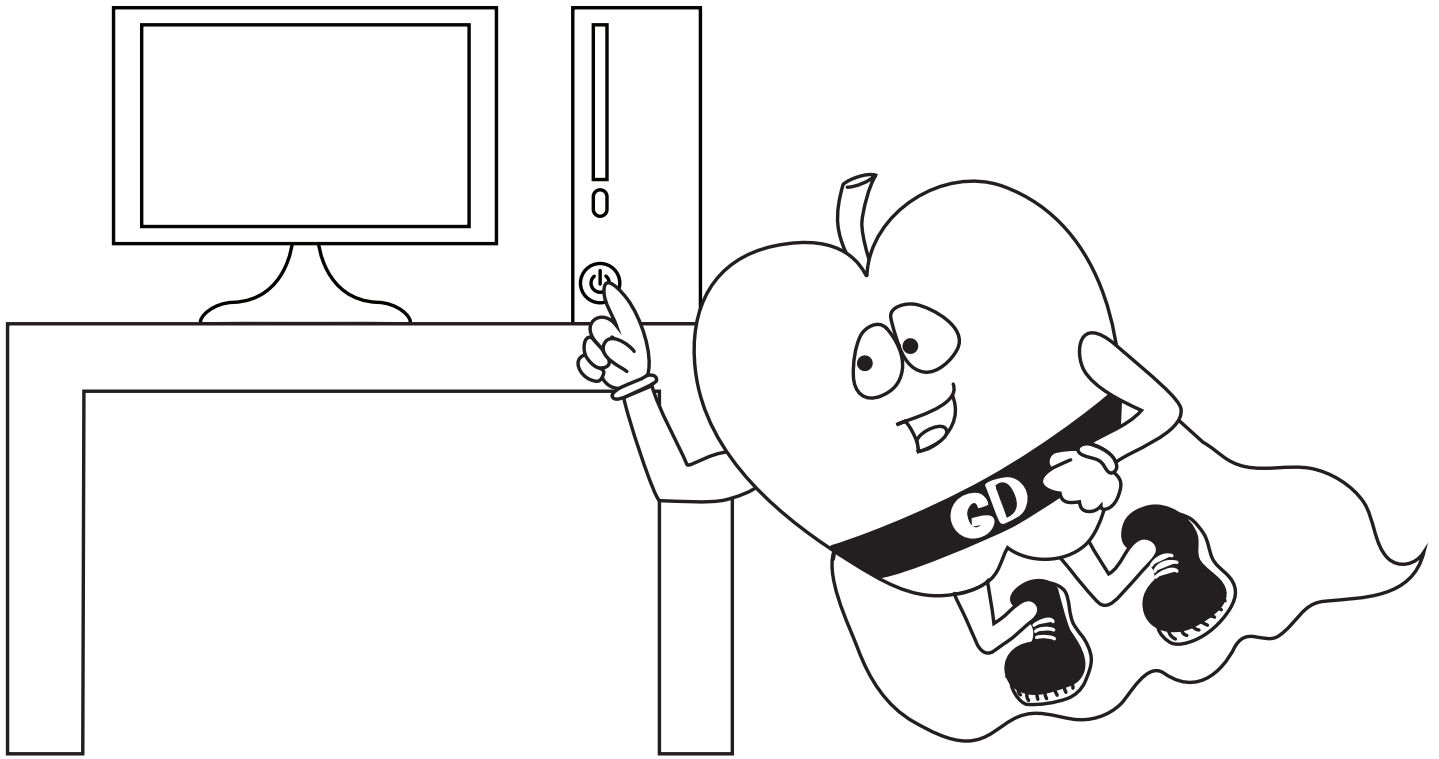

Unplug and Save:

Not everything needs to be plugged in all the time. Ask Mom and Dad which energy hogs in your house can be unplugged.

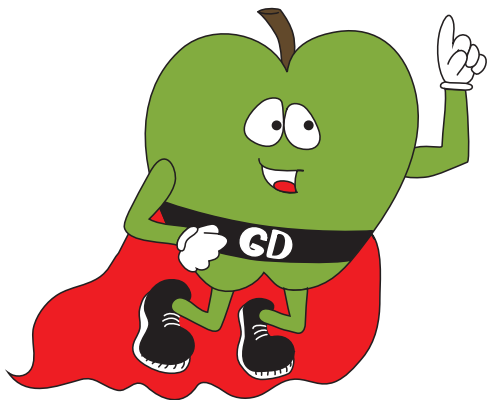

GREEN DEFENDER SAYS:

“Now it’s your turn! Use this page to show me how YOU can save energy this way...”

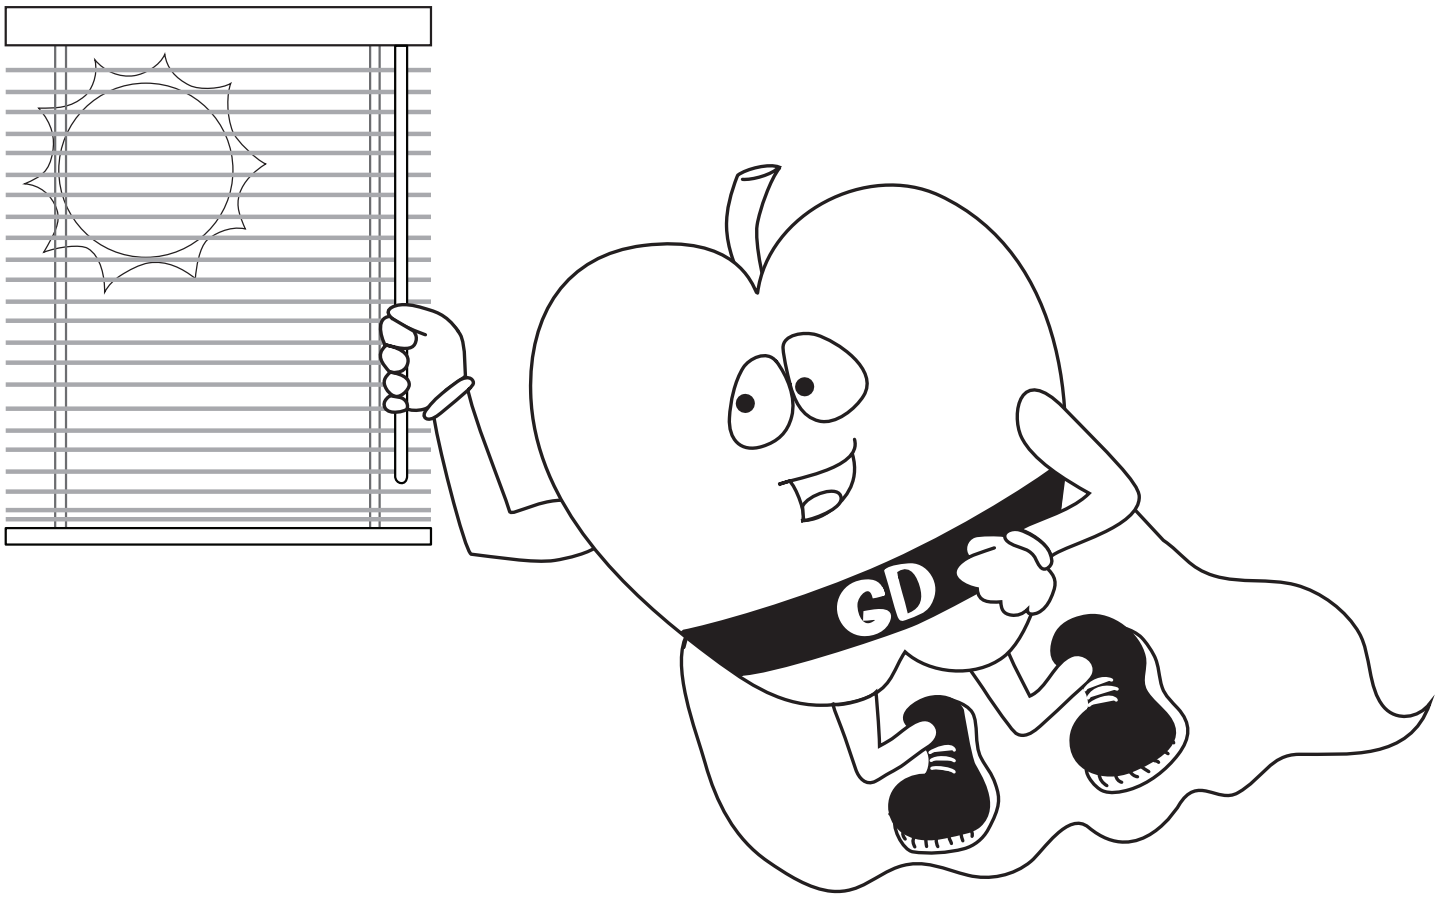

Turn off and Save

If you can't unplug it, turn it off when you are done. Ask mom and dad when you can turn off energy hogs around your home.

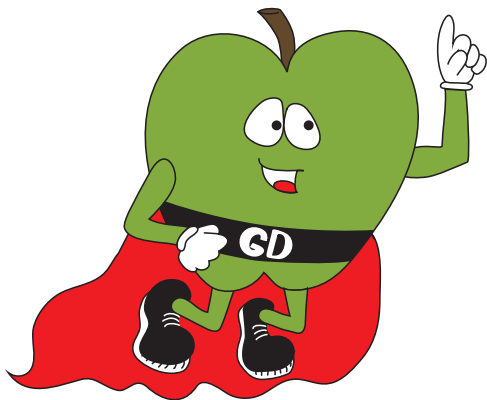

GREEN DEFENDER SAYS:

“Now it’s your turn! Use this page to show me how YOU can save energy this way...”

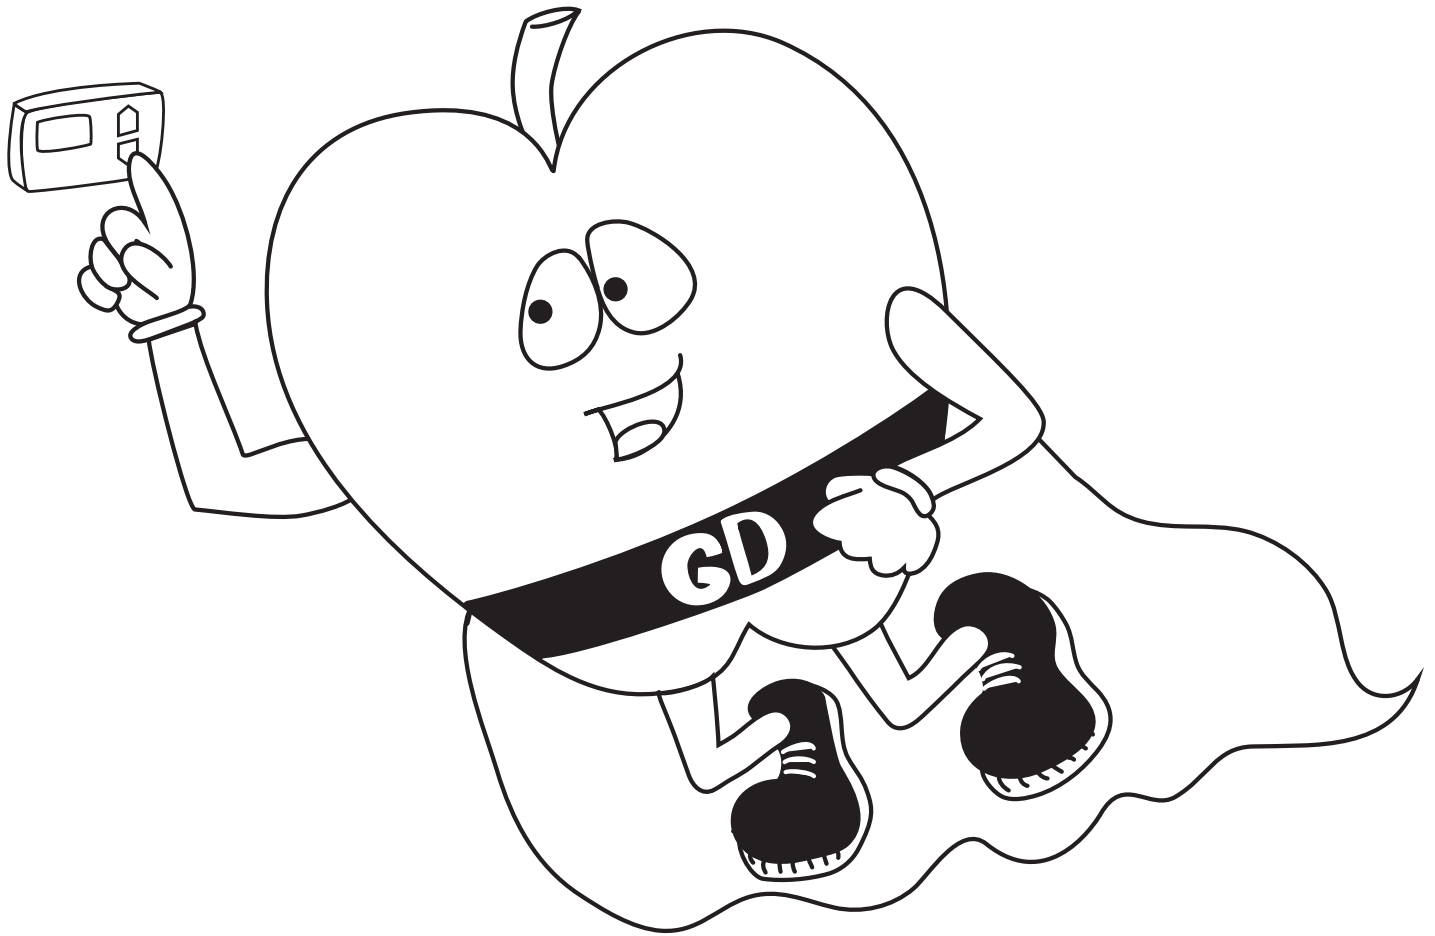

Close the Blinds

Remind your parents to close the blinds when you leave the house to help keep your house cool in the summer and warm in the winter.

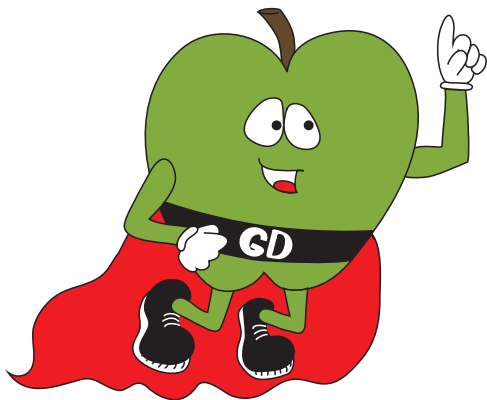

GREEN DEFENDER SAYS:

“Now it’s your turn! Use this page to show me how YOU can save energy this way...”

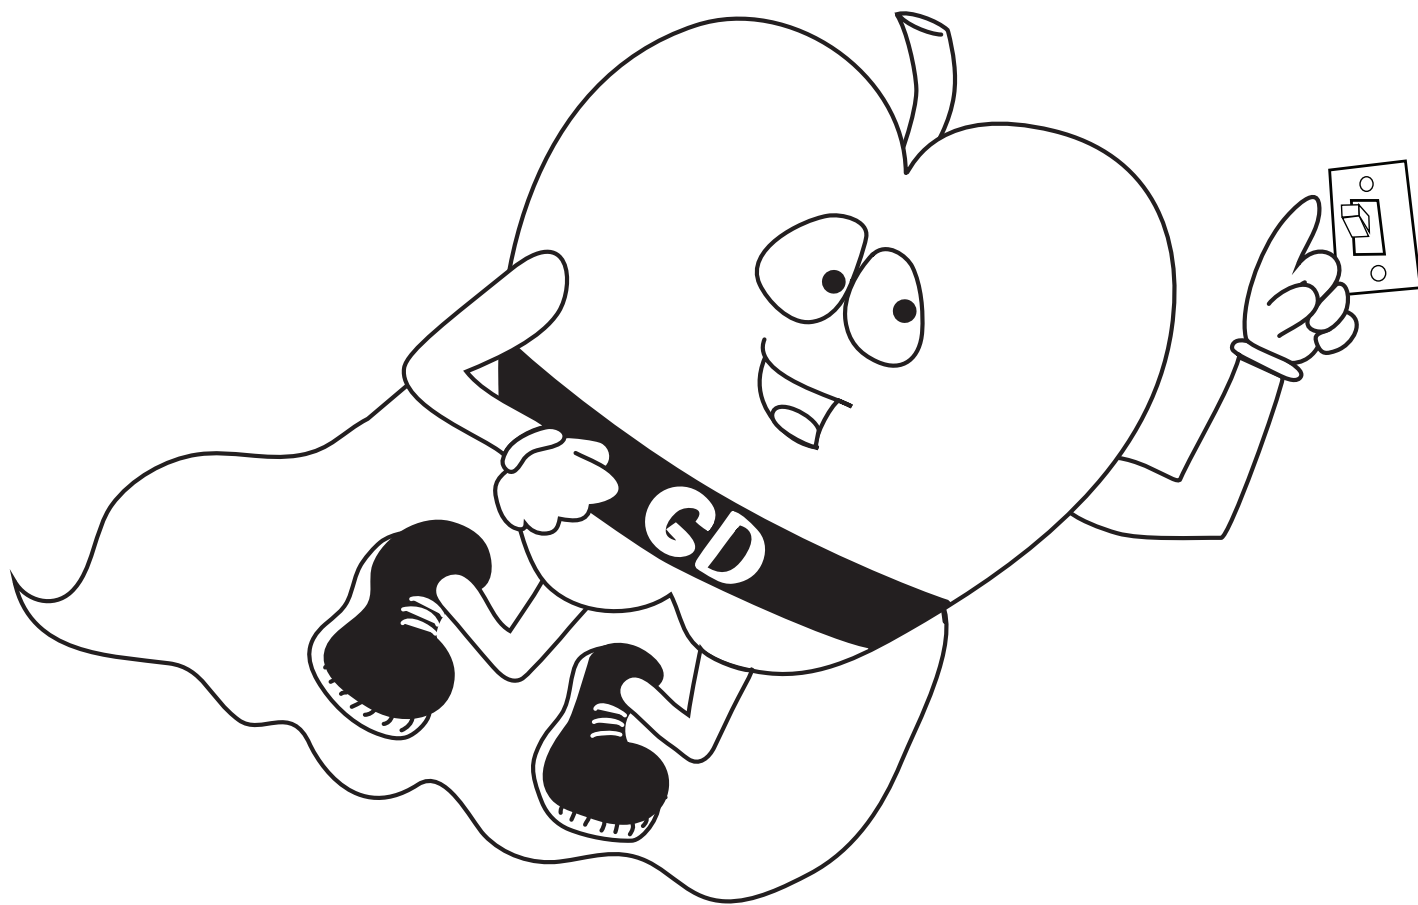

Check the Thermostat

Heating your house uses a TON of energy! Help mom and dad keep the heat in check by making sure it doesn't go lower than 70°.

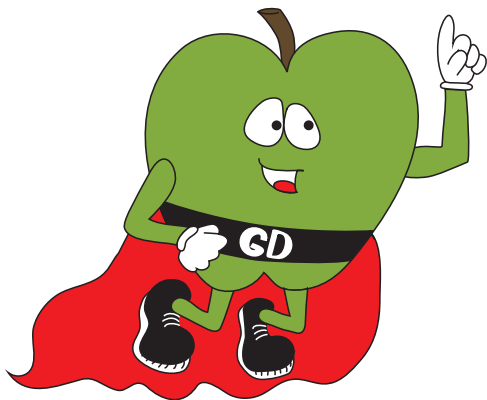

GREEN DEFENDER SAYS:

“Now it’s your turn! Use this page to show me how YOU can save energy this way...”

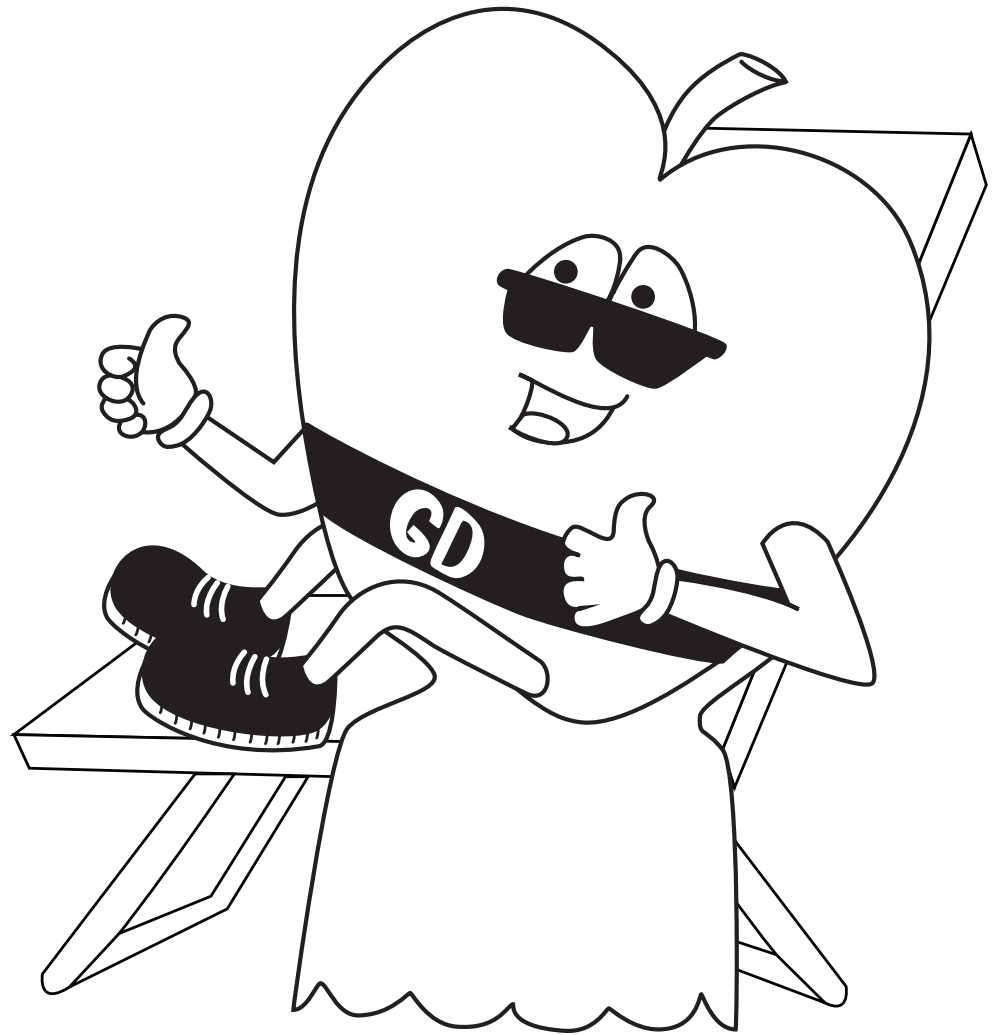

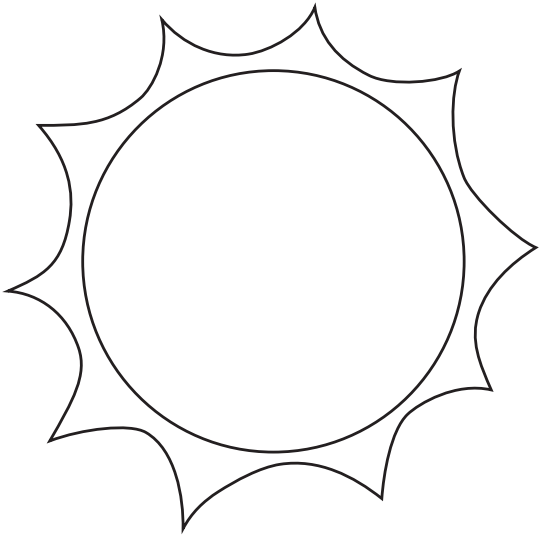

Last out? **LIGHTS OUT!**

When you leave a room, always turn out the lights. It's the easiest way to save energy!

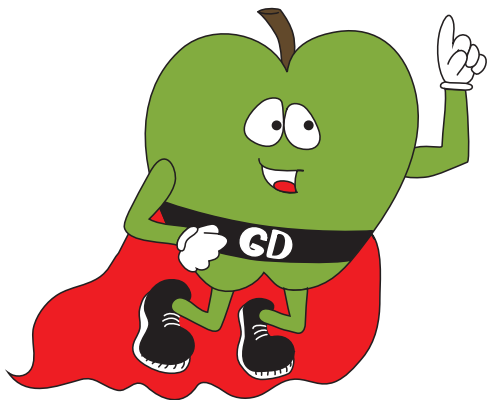

GREEN DEFENDER SAYS:

“Now it’s your turn! Use this page to show me how YOU can save energy this way...”

Sun Out? LIGHTS OUT!

If the sun is shining you may not need to have the lights on in the house. Ask mom and dad if you can turn them off on sunny days.

GREEN DEFENDER SAYS:

“Now it’s your turn! Use this page to show me how YOU can save energy this way...”

Thanks for helping, kids! If you keep doing these things you will make the earth a better place!
